

# AMERICAN DENDROBATID GROUP

Newsletter No. 2

March 1992

This is the second issue of the Newsletter of the American Dendrobatid group. Its purpose is to develop better communication between Dendrobatid breeders in North America. This is not a replacement of the ISSD Bulletin, but it is hoped that it will serve to keep dendrobatid frog breeders in better communication with one another. I hope that with this communication we will be able to solve some of the problems which affect us all (i.e. obtaining frogs, over coming diseases, breeding species new to us, set up of terrariums, etc.). This newsletter will appear bimonthly and will cost \$5.00 annually to cover printing and mailing.

Subscriptions, comments, etc. should be sent to Charles Powell (2932 Sunburst Dr., San Jose, CA 95111 Tel.: (408) 363-0926) or Terry Chatterton (8007 Ridge Rd., Arvada, CO 80002 Tel.: (303) 340 7647).
